Overview IBFD Standard Citations and References..... 36

# Introduction

## Aim

IBFD has agreed on a standard for textual references and citations of all online IBFD content to:

- serve the implementation of an increasing number of cross-references in IBFD documents;
- enhance quality, consistency and readability;
- facilitate uniform instructions to authors;
- support citing and referencing to IBFD documents by external sources, and;
- provide a framework for developing universal standards in areas currently not covered (e.g. dynamic online content).

This IBFD standard is based on the *ALWD Citation Manual* (3rd ed., Aspen 2006).

For non-US materials for which the ALWD does not provide examples, the *Guide to Foreign and International Legal Citations* (2nd ed., Aspen 2009) is used.

These will:

- serve as the “bible” to refer to for the major part of citations and textual references in IBFD documents;
- facilitate getting internal agreement on the standard and ensuring it is adopted by all;
- provide an established style IBFD can refer to when instructing editors and authors, and;
- enhance IBFD’s professional image towards the outside tax world.

## Scope

The IBFD standard covers all static and dynamic documents belonging to one of the generic information collections in the IBFD Tax Research Platform. In cases where the external manuals do not provide guidelines for all situations, new guidelines have been developed accordingly.

IBFD Standard Citations and References should, as far as is reasonably feasible, be followed with regard to printed and non-IBFD material to ensure the greatest possible consistency in the presentation of IBFD publications.

Example: P. Fumenier & C. Elbaz, *Absorption d'un holding et transfert des déficits* [Absorption of a Holding Company and Transfer Deficits], 65 *Revue de Droit Fiscal* 12 (2013).

## Definitions

For a good understanding of this standard, please note the following definitions:

- Citation: official standard for citing a document in foot- or endnotes.
- Full citations are used for the first reference in foot- or endnotes.
- Short citations are used for subsequent references in foot- or endnotes.
- Textual reference: standard for referring to a source in the main text of a document; **not** to be used in foot- or endnotes.
- Cross-reference: the actual hyperlink embedded in the text of a citation or textual reference, which leads the user to the unique URL of the particular IBFD document.
- External hyperlink: hyperlink to the unique URL of a document that is only available outside of the IBFD Tax Research Platform.

## Permanent Committee IBFD Standard Citations and References

The Library Team acts as the Permanent Committee ([Citations@ibfd.org](mailto:Citations@ibfd.org)) for the application of the IBFD standard. It addresses any questions or issues that may arise.

# General rules

Not every component of the citation will be present in the material to be cited. Use only the available components.

## Use of capitals

- All notes start with a capital letter
- Use of capitals in title (only for English-language materials)
- The ***first*** and ***last*** words of the title
- All ***nouns***, ***pronouns***, ***verbs***, ***adverbs***, and ***adjectives***
- Do not capitalize articles, prepositions or conjunctions, regardless of length.

(See <http://grammartips.homestead.com/caps.html>)

## Use of italics

In citations, always use *italics* for the titles of books, articles, treaties, models, reports and cases. Not in italics: the rest, e.g. administrative documentation, etc. In textual references, only use italics for the titles of cases.

When words or phrases within italicized or underlined material would themselves have been italicized or underlined under another guideline, such as a case name in a book title, change those words or phrases to ordinary type.

## Dates

Format dates as follows: d/dd Month (abbreviated, except for May, June and July) yyyy

Examples:

8 Mar. 2010

8 June 2010

Note: September is abbreviated as 'Sept.' not as 'Sep.'

In textual references the same format is used but the month is never abbreviated.

## Authors/Editors

If a document has two or three authors, cite as follows:

B.J.M. Terra & J. Kajus

M. Lang, J. Liu & G. Tang

If a document has more than three authors, only the first one is named, followed by et al.  
The same rules apply to editors.

Example:

J.F. Avery Jones et al., *The Origins of Concepts and Expressions Used in the OECD Model and Their Adoption by States*, 60 Bull. Intl. Taxn. 6, sec. 2.3.1. (2006), Journals IBFD.

## Abbreviations
